

# Have you thought about taking some positive steps towards work?

Perhaps you've considered some training or job searching?

WHiST now has an employment coach who can offer you support to help you get a job.

Ann has a lot of experience working with women. She worked for several years at another Women's Project and understands the issues and challenges women face.

If you are eligible she can offer you up to 18 months of guidance on the Wise Steps programme, helping you build better opportunities for moving in to work, attending training courses and job searching.

**Ask at the WHiST office for a confidential chat with Ann and she will get in touch. You can book to bring your children to the crèche when you have your appointments with her.**
